On clear Summer nights over the world of Toril, The Donna Gaye can often be seen floating lazily through the clouds as her owner hosts one of her famous, exclusive, dinner parties. Built as a pleasure craft for Solinar Tenardril, the Donna Gaye, whilst not large, is a very comfortable ship.

The top deck features a small bathing pool, deck chairs, an outdoor dining suite and a small target range. Interior comforts include a private bathing facility for Solinar (and her male/female companions), a large, well stocked larder, crew rooms, a cozy dining room, galley and, of course, a small bridge.
